

## REACH Compliance Declaration (SVHC 33<sup>rd</sup> - 247)

In reference to European Union Regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH), Tak Cheong, is providing the following information to our customers.

Based on having evaluated supplier material composition declarations, to the best of our knowledge, Tak Cheong declare, that the products assembled and tested by Tak Cheong (listed in Table-1), they do not intentionally use the chemical substances included in Candidate List of Substances of Very High Concern (SVHC) as published by ECHA (SVHC 33<sup>rd</sup> - 247 items, listed in Table-2), last updated on 2025-Jan-21, except we have identified materials within its products that may contain SVHC candidate substances in excess of 0.1% by weight as noted in Table-1 below.

**Table-1: Tak Cheong Product List**

Production line	Package type	Product family
Glass-diodes <sup>Note 1</sup>	DO-34	Switching, Zener
	DO-35	Switching, Schottky, DB3, Zener, TCON Zener
	DO-41	Zener, TCON Zener
	LL-34	Switching, Schottky, Zener
	LL-41	Zener
Plastic packages	SOD123/SOD323/SOD523	Switching, Schottky, Zener, TVS/ESD
	SOT523	Switching, Schottky, Transistor, MOSFET
	SOD882/SOT883/DFN0603	Switching, Schottky, TVS/ESD, Transistor
	TO-220/TO-220F <sup>Note 2</sup>	Schottky, MOSFET

Note 1: Diboron trioxide (CAS No. 1303-86-2, Item 80 in Table-2, which was added to the REACH as SVHC on Jun 18, 2012), Lead monoxide (CAS No. 1317-36-8, Item 116 in Table-2, which was added to the REACH as SVHC on Dec 19, 2012), Glass-diodes with a glass base material, the supplier of glass tube has reported these two substances as a raw ingredient. Tak Cheong may declare these substances in excess 0.1% by weight for impacted articles. However, these substances are not present in their original molecular form and cannot be released under normal or reasonably foreseeable conditions. EU REACH communications to customers and ECHA are not applicable for articles containing glass and ceramics since they are classified under EU REACH as UVCB substances (substance of unknown or variable composition, complex reaction products or biological material).

Note 2: Lead (CAS No. 7439-92-1, Item 189 in Table-2, which was added to the REACH as a SVHC on Jun 27, 2018), may be contained in Tak Cheong TO-220 products, in such cases the lead is RoHS exempted with 7(a) [Lead in high melting temperature type solders (*i.e.* lead-based alloys containing 85 % by weight or more lead)] or 7(c)-1 [*Electrical and electronic components containing lead in a glass or ceramic other than dielectric ceramic in capacitors, e.g. piezoelectronic devices, or in a glass or ceramic matrix compound*]. The suppliers of die attach solder materials have reported this substance in their material composition declaration. Tak Cheong may declare this substance in excess of 0.1% by weight for impacted articles.
